 ruthvik-maturu |  RUTHVIKMATURU | LeetCode: ruthvik0811 | ruthvikmaturu.vercel.app

CAREER OBJECTIVE

Computer Science student with strong problem-solving skills and a solid foundation in software development and design. Seeking a Software Engineering role to apply analytical thinking, contribute to impactful projects, and grow in a collaborative environment.

EDUCATION

Vallurupalli Nageswara Rao Vignana Jyothi Institute of Engineering and Technology, B.Tech in Computer Science and Engineering with Artificial Intelligence and Machine Learning

Sep 2023 - Expected May 2027

- CGPA: 9.08/10

EXPERIENCE

Mercor | *Competitive Coding Writer*

Nov 2025 – Feb 2026

Developed high-quality competitive programming problems and editorials covering advanced algorithms and data structures. Designed comprehensive edge-case test suites, validated optimized solutions, and ensured correctness, efficiency, and competitive difficulty standards.

PROJECTS

AI-Powered Travel Planning Platform

Next.js, Prisma, PostgreSQL, Gen AI

- Developed an AI-powered travel planning platform that generates personalized itineraries, recommends destinations, estimates travel budgets, and provides weather insights based on user preferences.
- Built secure authentication, trip management, and an intuitive responsive interface, enabling users to efficiently organize and manage end-to-end travel plans.

AI-Powered Object Detection and Scene Captioning

MERN, Python, FastAPI, ML, GenAI

- Developed a real-time computer vision system capable of detecting multiple objects and generating context-aware scene descriptions from live video streams.
- Designed an efficient inference pipeline and REST-based backend to support low-latency processing and scalable deployment for real-time AI applications.

Smart Hostel Management Platform

MERN

- Developed a centralized hostel management platform that automates room allocation, fee management, complaint tracking, and student administration workflows.
- Implemented JWT-based Role-Based Access Control (RBAC) and an administrative dashboard to securely manage hostel operations and monitor occupancy.

SKILLS

Languages: C, C++, Java, Python, JavaScript, SQL

Technologies: React.js, Next.js, Node.js, Express.js, FastAPI, Flask, PostgreSQL, MongoDB, MySQL, Prisma ORM

Tools: Git, GitHub, Docker, Postman, HTML5, CSS3, Tailwind CSS, Bootstrap, REST APIs, WebSockets, JWT

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

POSITIONS OF RESPONSIBILITY

Technical Head – ISTE Hyderabad, VNR VJIET

2025 – Present

- Organized and managed technical workshops on AI, Web Development, Git, and C++.
- Delivered hands-on troubleshooting during workshops, unblocking environments for 100+ participants and achieving 95% session retention.

COMPETITIVE PROGRAMMING

- Solved 1500+ problems across LeetCode (Max Rating: 2268), CodeChef (1839), and Codeforces (1499), consistently applying advanced algorithms and data structures to solve complex competitive programming challenges.

HONORS, AWARDS & CERTIFICATIONS

- Competitive Programming:** Secured AIR 17 and ranked 1st on the Campus Leaderboard in Smart Interviews; achieved AIR 1712 in IICPC CodeFest Prelims (India); secured 2nd Place in an ICPC-style Coding Contest at VNR VJIET.
- Certifications:** Data Structures & Algorithms, MERN Stack Development, Data Visualization with Tableau, Google Cloud Skills Boost.
